

I am a daily listener of the K-Love station, currently heard on 96.9 I would like to be able to continue to get this station and others in my town enjoy listening to this Christian, uplifting, commercial free station. I oppose the Low Power FM stations taking priority over current Fm services as those used to let us hear K-Love. Many in my town enjoy listening to a station that we can access from home or anywhere in the nation we travel! Please let it be! Thank you for listening to my concern!
